

Care & Use

Maintenance

Is it easy to maintain a Stonemark® granite countertop?

Yes, especially since Stonemark® countertops do not require sealing for 15 years after installation. Normal use and regular cleaning with approved products will ensure that your countertop maintains its natural beauty for many years. Abrasive or acidic household cleaners are to be avoided. Any spills should be wiped up as soon as possible. Details about the Countertop Care Program will be provided with your purchase of a Stonemark® countertop.

How do I clean my countertop?

We recommend the use of a special stone cleaner or warm water and light dish soap. Abrasive or acidic household cleaners should not be used. Any spills should be wiped up as soon as possible.

Do I need to seal my Stonemark® countertop?

No. Every Stonemark® granite slab is treated proprietary anti-staining Stoneguard HD sealer, which protects granite from staining for 15 years subject to the terms and conditions of the limited warranty.

Will granite maintain its polished gloss?

Yes. Regular cleaning, with recommended products and normal use, will ensure that your granite countertop never loses its gloss.

Staining

Is Stonemark® granite stain resistant?

Yes. Every Stonemark® granite slab is treated with Stoneguard HD sealer. This technology, combined with decades of experience, allows Stonemark® to provide an unprecedented free 15-year limited warranty for stain resistance and material integrity.

What should I avoid with my countertops?

We suggest that spills of wine, mustard, oils and acidic products should be wiped up immediately. Please see the care and maintenance section for full details.

What happens if my granite stains?

In the rare occasion that your granite does stain, Stoneguard HD will work with you to help remove the stain.
